Why is this happening?

- This opportunity is only possible because of the significant contributions of more than 30,000 founding members. These contributions, paired with the desire to connect all graduates to (and engage them with) their Association, make now the right time to embody our name — Association of Graduates — for **all** graduates. We'll be able to:
- Reach and serve all 51,000+ living graduates
 - Energize the Long Blue Line by bringing more voices to the table and ensuring that the AOG serves **all** graduates
 - Create more opportunities for connection among graduates, their alma mater and cadets
